

SMT Reflow Furnace

The Reflow oven provide electronics manufactures with the highest throughput, and increased flexibility to compete successfully in today's challenging global market

Features

- Low cost of ownership
- Low nitrogen and power consumption
- Multiple track solution
- Innovative cooling system, unique clamshell air or water-cooling design moves the cooling media away from the process chamber, where it can be easily accessed for maintenance
- Side-to-side recirculation provides the best temperature uniformity

Applications

Specifications

- 350°C ~ 1000°C temperature
- Stainless steel construction
-
